

ABOUT US

From concept to completion, Studio Apex brings global capability, local expertise and complete accountability under one platform.

Studio Apex is an Adelaide-based, design-led architectural solutions, supply and fitout business, built around three core values: **Quality, Detail and Service.**

We provide an integrated, cross-border platform connecting design, global sourcing, manufacturing, supply and professional installation, giving architects, builders, developers and property owners a more streamlined way to deliver high-quality projects.

We specialise in premium, energy-efficient architectural finishes, building materials and integrated fitout solutions. Our capabilities span interior design and architectural finishes, façade and curtain wall systems, windows and glazing, custom joinery, natural and engineered stone, tiles, timber flooring, wet-area solutions, intelligent lighting and a broad range of building-envelope products.

We can work directly with our clients from the early design and material-selection stages, or collaborate closely with their architects, interior designers and builders to source, manufacture and deliver products that meet the project's specific design intent, technical requirements, budget and programme.

Global Capability. Local Expertise.

What sets Studio Apex apart is our combination of international supply-chain capability and strong local knowledge.

Through our established manufacturing network and long-standing partnerships across China's extensive building-products and manufacturing supply chain, we provide access to high-quality products, specialist manufacturing capabilities and competitive procurement opportunities.

At the same time, our Adelaide-based team understands Australian design expectations, construction practices, compliance requirements and, importantly, the challenges that builders, designers and owners experience when sourcing products internationally.

We don't simply sell products or provide drawings. We identify the gaps between design, procurement, manufacturing and construction — and take responsibility for bringing them together.

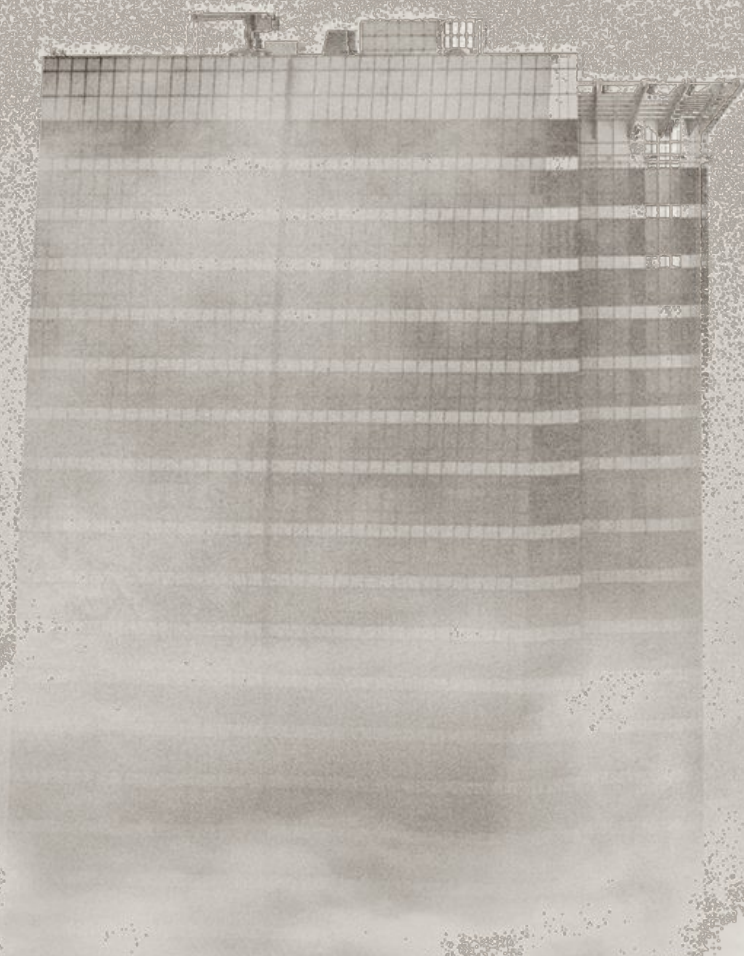

One Team. One Process. Complete Accountability.

From design coordination and product selection through procurement, manufacturing, quality control, logistics, installation and after-sales support, Studio Apex provides a coordinated end-to-end service.

Our objective is simple: to remove the complexity and uncertainty traditionally associated with international procurement and multi-trade coordination while delivering exceptional quality, value and attention to detail.

WE DON'T SELL, WE SOLVE

SOLVE

SOURCING SERVICE

Global sourcing through our established manufacturing network across China's building-products supply chain. We control quality from factory to site — competitive procurement, on-time delivery, no hidden cost surprises.

OUR SERVICE

CONSULTING SERVICE

We identify and eliminate risk early — budget, programme, buildability and compliance. Our advisory bridges Australian design expectations with offshore manufacturing execution.

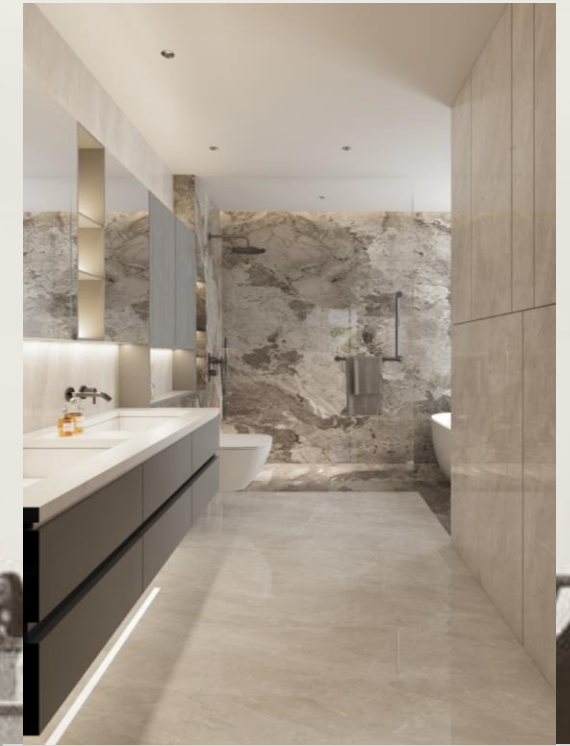

OUR SERVICE

ARCHITECTURE DESIGN

Beyond aesthetics, we design for buildability and long-term performance. We work directly with owners, or alongside your architects and builders, to meet design intent and technical requirements.

OUR SERVICE

INTERIOR DESIGN

Interior design and architectural finishes — material selection, joinery detailing, and attention to every joint and finish. Not just beautiful: durable, maintainable and compliant.

Contact For the Solution

**Again,
We don't simply sell products — we solve problems.**

We identify the gaps between design, procurement, manufacturing and construction — and take responsibility for bringing them together. With an Adelaide-based team and a manufacturing network built over decades across China's building-products supply chain, we deliver what we promise — on time, on spec, on budget.

Studio Apex Product List — We don't Sell, We Solve

Category	Product Name	Image	Specification/Model	Material	Color/Finish	Dimensions	Certification	Notes	Our Proficiency
1. Building Core Materials									
Door & Window Systems	Window		70/80 series	Aluminum alloy + PA66 thermal break	Multiple colors	Customizable	COC/CE		✓✓
Door & Window Systems	Door		2.0mm wall thickness	Aluminum alloy, aluminum-wood composite, stainless steel	Electrophoresis / powder coating	Customizable	COC	Can be equipped with screen	✓✓
Sanitary Ware	Standard toilet, smart toilet		305/400mm rough-in	Ceramic + ABS cover	Various	Standard sizes	COC/CE/CUPC	Remote control / instant heating	✓✓
Sanitary Ware	Shower set		All-copper body	Brass + stainless steel	Chrome, matte black, brushed gold, etc.	Customizable		Includes mixing valve + rain shower	✓✓
Sanitary Ware	Bathroom vanity		Floor-mounted / wall-hung	Multi-layer solid wood + ceramic basin	Multiple colors	Standard sizes		Optional	✓✓
Hardware	Door locks, hinges, slides, floor drains, faucets, towel racks, shelves, etc.		304 stainless steel / aluminum alloy	Stainless steel / brass / aluminum alloy	Brushed, mirror, matte black, copper	Standard sizes			✓✓
Tiles	Antique tiles, polished tiles, vitrified tiles, glazed tiles, wood grain tiles, mosaic, sintered slab		800x800, 600x600, 300x600, 400x400, 300x300, 600x1200, 750x1500, 900x1800, 150x900, etc.	Porcelain	Various textures	Standard sizes	COC/CE		✓✓
Stone	Marble / granite		Customizable	Natural stone	Multiple colors and textures	Customizable			✓✓
2. Home Appliances									
Home Appliances	TV/fridges/AC/heater/pump/kitchen wares etc.		Customizable	Variety	Multiple colors and textures	Customizable		big brands lower prices; unknow brands with good quality	✓✓
3. Interior & Exterior Decoration Materials									
Flexible stone / PU stone	Imitation culture stone / wood grain / marble		600x300x2-4mm	Modified inorganic soil / PU polyurethane	Imitation stone, wood, brick, etc.	Customizable	COC/CE/ASTM	Lightweight, eco-friendly, variety replaces stone	✓✓
Glass block	Solid / hollow glass block		190x190x80mm	Tempered glass	Frosted, transparent, colored	Standard sizes		New material with good effect	✓✓
Flooring	Solid wood flooring, cork flooring, engineered flooring, laminate flooring, SPC/LVT flooring		1.5-22mm (depends on material)	Natural wood, 3-ply engineered, multi-ply engineered, stone-plastic composite, A2 fireproof carbon-magnesium board, composite board, carbon board, etc.	Wood grain, stone grain, imitation cement, clear water finish, imitation fabric, leather, imitation metal, etc.	Customizable	COC/CE/Floorstore	Waterproof & moisture-proof	✓✓
Lighting	Pendant lights, ceiling lights, wall lights, downlights, spotlights,, table lamps, floor lamps, LED strips		Dimensions, wattage, color temperature, mounting hole	Metal, glass, plastic/acrylic, natural materials, ceramic/resin, others	White light, warm light, colored	Customizable	COC/CE/ROHS	Various certification files available	✓✓

Studio Apex Product List — We don't Sell, We Solve

Category	Product Name	Image	Specification/Model	Material	Color/Finish	Dimensions	Certification	Notes	Our Proficiency
Furniture	Sofa, bed, dining table, chair, cabinet		Customizable	Solid wood, fabric, leather, acrylic, etc.	Multiple / various colors	Customizable		Customizable based on drawings	✓✓
Custom cabinets/Joinery	Kitchen cabinets, wardrobes, entry cabinets		Customizable	Multi-layer solid wood, particle board, composite board, etc.	Multiple colors	Customizable		Design drawings available	✓✓
Wall panel	Carbon crystal panels, anti-impact panels, bamboo-wood fiber panels, etc.		1220x2440x3/5/9mm	Carbon crystal, polyester fiber, bamboo-wood fiber	Multiple colors / film-covered	Standard sizes		Custom colors and thickness available	✓✓

4. Road & Bridge Infrastructure Materials

Cement clinker	Portland cement clinker		Grade 42.5 / 52.5	Silicate	—	Bulk		China exported 5.14 million tons in 2025 (+1391% YoY)	✓
Rebar / deformed bar	Hot-rolled ribbed bar		HRB400E / HRB500	Carbon steel	—	Standard sizes			✓
Asphalt	Petroleum asphalt		Grade 60/70, 70/100	Petroleum	Black	Drum / bulk			✓
Crushed stone / aggregates	Graded crushed stone		10-20mm, 20-40mm	Natural stone	—	Bulk		For road base / concrete	✓
Pipes	HDPE corrugated pipe / steel pipe		DN200-DN800	HDPE / galvanized steel	Black	6m / 12m		For drainage / cable conduit	✓✓
Embedded steel plate / sections	I-beam / channel steel		Q235 / Q355	Carbon steel	—	Customizable		For bridge structures	✓✓

5. Construction Equipment & Accessories

Formwork	Plywood formwork / steel formwork		1220x2440x12-18mm	Poplar / pine / steel plate	—	Standard sizes		For building / bridge construction	✓
Scaffolding	Cuplock / ringlock		Φ48.3x3.2mm	Q355B steel pipe	Hot-dip galvanized, etc.	1-3m			✓✓
Waterproofing materials	Waterproof membrane / coating		SBS/APP/PVC	Bitumen / polymer	—	Customizable		For roof / basement	✓
Safety net / debris net	Mesh safety net		1.8x6m	HDPE	Green	Standard sizes		For construction sites	✓✓
